Subject: Application - Ingénieur d'application

Dear Hiring Team at Julius Baer,

With over 10 years of experience in investment analysis and a strong background in financial modeling and valuation, I am excited to apply for the Ingénieur d'application position at Julius Baer. My expertise in the startup ecosystem and my technical skills align well with the requirements of this role.

I possess exceptional knowledge of trading processes, particularly in secondary markets, and have a solid foundation in Oracle PL/SQL development and automation. My trilingual capabilities (English, French, Spanish) enhance my ability to collaborate effectively in diverse environments.

In my previous roles, I successfully led integration projects for trading systems, providing technical support to business analysts and ensuring seamless operations. My proactive approach to identifying areas for improvement has consistently resulted in enhanced system performance and user satisfaction.

I am available for an interview at your earliest convenience and am open to travel as required. I look forward to the opportunity to contribute to Julius Baer's mission of shaping the future of wealth management.

Kind regards, In practice, that means I work on the work with attention to clarity. I prefer concrete steps — defining the scope, setting a simple plan, and adjusting based on feedback. I keep it readable: short updates, a clear call-to-action, and timelines people can accept.
