Subject: Application - Directeur des données

Dear Hiring Team at Lombard Odier,

With over 10 years of experience in investment analysis and a strong background in data governance, I am excited to apply for the Directeur des données position at Lombard Odier. My expertise in financial modeling and data integration aligns well with the strategic goals of your Data Office.

I possess advanced skills in data governance and compliance, having successfully led initiatives that ensured adherence to regulatory standards. My proficiency in data architecture design and integration processes will contribute to the robustness of your data strategy.

In my previous role, I managed a multidisciplinary team to implement a cloud-native data architecture, resulting in a 30% increase in data accessibility and quality. My experience with business intelligence tools like Power BI and my ability to foster collaboration among stakeholders have been key to driving data-driven decision-making.

I am available for an interview at your earliest convenience and am open to relocating to Switzerland if necessary. I look forward to the opportunity to discuss how my background and skills can contribute to the innovative environment at Lombard Odier.

Kind regards,

Juan-Bernardo Rivero
