Subject: Application - Ingénieur en recherche quantitative

Dear Hiring Team at Swiss Life Asset Managers,

I am a results-driven investment analyst with over 10 years of experience in financial analysis and a keen interest in quantitative finance. My background in entrepreneurship and investment analysis aligns well with the requirements of the Quantitative Engineer position at Swiss Life Asset Managers.

I possess strong skills in financial valuation, due diligence, and quantitative analysis. My technical proficiency in Python and my understanding of AI applications in finance will enable me to contribute effectively to your team.

In my previous roles, I successfully developed investment strategies and optimized portfolios, demonstrating my ability to analyze complex data and implement effective solutions. My experience in fast-paced environments has honed my problem-solving and negotiation skills, making me a valuable asset to your organization.

I am available for an interview at your earliest convenience and am open to remote work arrangements. I look forward to the opportunity to discuss how my skills and experiences align with the goals of Swiss Life Asset Managers.

Kind regards, In practice, that means I work on the work with attention to clarity. I prefer concrete steps — defining the scope, setting a simple plan, and adjusting based on feedback. I keep it readable: short updates, a clear call-to-action, and timelines people can accept.

Juan-Bernardo Rivero
