Subject: Application - Analyste de données

Dear Hiring Team at Lombard Odier,

I am a results-driven business professional with over 10 years of experience in investment analysis and a keen interest in data-driven decision-making. My background in financial modeling and valuation aligns well with the requirements for the Data Analyst position at Lombard Odier.

I possess advanced skills in Excel, Power BI, and SQL, complemented by a solid understanding of data integration and automation processes. My trilingual capabilities (English, French, Spanish) enhance my ability to collaborate effectively in diverse teams.

In my previous roles, I successfully transformed operational data into actionable insights, leading to improved decision-making and process optimization. My experience in managing stakeholder relationships and my analytical mindset have consistently contributed to project success.

I am available for an interview at your earliest convenience and am willing to relocate to Switzerland if necessary. I look forward to the opportunity to contribute to Lombard Odier's innovative team.

Kind regards,

Juan-Bernardo Rivero
